

# WORKSHOP FEES

## WHAT ARE OUR FEES?

Our workshops are available for a sliding scale fee of \$100 to \$1000.

## WHY DO WE DO THIS?

A flexible scale allows us to provide trainings to everyone, regardless of their organizational budget. The true cost of our trainings falls in the middle, by paying more than the true cost you help support our mission and smaller organizations access to quality trainings.

### \$100 – \$500

Consider this rate if your organization provides direct service, if you're a nonprofit, if your budget is under \$750,000, if no one or few people in your organization make more than \$100,000, or if you suffered significant financial loss during the pandemic.

SOLIDARITY

.....

### \$500 – \$1000+

Consider this rate if you are a for-profit organization, if most of your staff have higher degrees, if you regularly send staff members to conferences, or if many of your staff members make more than \$100,000 a year.
